

PODIUM

Basic Care

Solid Wood Furniture

- Clean the furniture daily with a dry cloth or feather duster.
- For heavy cleaning, wipe the furniture with a damp cloth and then use a dry cloth to finish.

Solid Wood Tabletop

- Clean the tabletop daily with a dry cloth or feather duster.
- For heavy cleaning, wipe the tabletop with a damp cloth and then use a dry cloth to finish, or use a cleaning solution to remove stains.
- To kill germs, wipe the tabletop with alcohol.
- No special care is required since the tabletop has a coating that helps prevent stains from food and beverage. It is also resistant to heat.

PODIUM

Basic Care

Natural Rattan

- Only clean rattan with a dry cloth or feather duster.
- To avoid stains, remove any spilled liquid with a dry cloth as soon as possible.
- Never clean rattan with a damp cloth, which will cause mold.
- Keep the rattan out of direct sunlight to prevent it from darkening.

PODIUM

Basic Care

Genuine Leather

- For normal cleaning, remove surface dirt with a clean cloth.
- To get rid of deeper stains, clean the surface with a damp, well-wrung cloth.
- Never use alcohol or cleaning solutions because they may destroy the leather's coating and cause stains.
- Avoid placing the leather in direct sunlight, which will degrade and darken the material.

PODIUM

Basic Care

Standard Fabrics

- Vacuum the upholstered furniture once a week.
- If there is a spill, dab the fabric with a clean cloth or sponge soaked in warm water. (Do not get the fabric too wet.)
Work from the outside to the middle of the stain.
Then dry it with a dry cloth and let it air dry.
- Avoid putting the fabric in direct sunlight to prevent fading.

PODIUM

Basic Care

Pet-friendly Fabrics

- Vacuum the upholstered furniture regularly.
- No special care is required because the fabrics repel stains and water, prevent dust from setting in the fibers, and protect against scratches.
- When liquids spill, wipe the fabric gently with a dry cloth or tissue paper.
- In case of a dry stain, use a soft-bristled toothbrush to brush over it with mild soapy water. Then clean the surface with wet wipes and dab it with tissue paper to finish.
- Avoid putting the fabric in direct sunlight to prevent fading.
- Washing the fabrics is not recommended. It will cause the coating to lose its ability to prevent scratches, stains, water or dust.

PODIUM

Basic Care

Paper Cord

- Paper cord requires no cleaning or special care due to its natural strength and durability.
- In case of spilled liquids, gently dab the paper cord with a tightly wrung cloth. Never rub the liquids.
- To prevent stains, avoid spilling brightly colored food or liquid on the paper cord.
- Never wash the paper cord with detergent.

PODIUM

Basic Care

Textilene

- To clean regularly, use a feather duster or a dry cloth to remove dust from the fibers.
- When heavy cleaning is needed, wash the fibers with mild soapy water and then dry them with a cloth.
